

Multiple children using Google Classroom on the one computer

There is problem when trying to have more than one child log into their Google Classroom accounts on the one computer. Here is how to fix it.

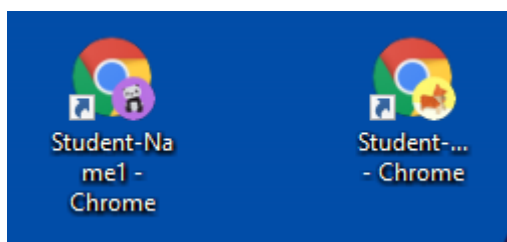

1. In Google Chrome browser, click on the Signed in Profile as below (the photo or letter, just under the X) , and click on ADD:

2. Write your child's name, Select an icon image for the student, and make sure 'Create desktop shortcut for this user' is checked, then click 'Add'.

3. The shortcuts will appear on the desktop.

4. You can use these shortcuts, to open different Google Chrome instances, sign in to google accounts with different profile on each instance and continue working with different profiles on each browser instance.
